

## **DOWNLOAD TO PC**

On your PC just click on the link and it will open. Use the +/- button in the bottom LH corner of the map to zoom into any scale that suits you. If you want to view the map in Satellite mode, use the slide on the LH panel and slide down to the satellite button in the LH corner of this panel.

The red lines on the map are the main walking routes. The green lines are the local links and loops that are so important to local walkers. The blue lines are future walking routes. There are also layers for toilets, water fountains and T-way stations and the boxes for those layers may be clicked when needed.

## **PRINT**

Use the snipping tool to select the area you want to print (NEW) and then click on FILE, PRINT to print off your map. Note that you must select a rectangular area if you want to print on one A4 page. If you want to ensure that your map only prints on one page click on SAVE AS rather than print and save the selected area as a .jpg file on your PC and then insert the .jpg file into a MS Word page.

## **DOWNLOAD TO SMARTPHONE OR TABLET**

You can also download the link onto a smartphone or tablet:-

· On an Android phone (Google, Samsung, LG, Sony, HPC, Huawei, Xiaomi, Acer and Motorola) click on the link. You may be asked if you want to open the map in Google Maps. If so, enter "Y". If it doesn't ask you, close the direct link and:-

1. Click on the Google Maps app .
2. Tap Menu ≡ > Your Places > Maps.
3. Tap the map "Great West Walking Network" which should now be on the Maps menu
4. You will now be able to follow any walking route as it will show you your location on the map,

· On an iPhone or iPad just click on this link and it will open but it will not show your location on the map.
