COUNCIL ENTITIES	70

Introduction

Under Section 608 of the Local Government Act 1993 Council may charge and recover an approved fee for any service it provides, including the following:

- supply a service, product or commodity;
- giving information
- providing a service in connection with the exercise of the council's regulatory functions
- including receiving an application for approval, granting an approval, making an inspection and issuing a certificate
- allowing admission to any building or enclosure.

Under the principle of "user pays", fees are introduced to offset the cost of service provision, or in the case of commercial activities to realise a reasonable rate of return on assets employed by the Council, in order to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

Council has given due consideration to the following factors in determining the appropriate price for each fee:

- cost of the Service or Operation
- other revenue sources which may fund the service
- laws and regulations
- ability of the persons/group using the service to pay
- benefit to the community (possible subsidy)
- benchmarking with others providing similar services.

Council discloses its pricing policy by showing a pricing code against each individual fee within the schedule of Fees & Charges. Council's current pricing policy is outlined in the following section.

All fees are quoted in "GST Inclusive" terms, as this is the relevant price to the customer, however it should be recognised that within the schedule there are many fees that do not attract GST. Any portion of bonds/deposits retained will be subject to GST of 10%

Pricing Structure

Price Code	Pricing Structure	Pricing Application
FCR	Full Cost Recovery	Includes all costs, direct and indirect, incurred in providing the good or service. Indirect costs include a proportion of shared costs (or overheads) which include supply and information technology; the recording and processing of financial information,
DCR	Direct Cost Recovery	Includes the recovery of salary, salary on-costs, and materials directly attributable to the provision of the good or services.
EXT	External Cost	Price is determined by external parties carrying out the relevant works.
REF	Reference	Involves the identification of like or similar services in the community followed by the adoption of similar prices to those charged by such services.
ROR	Rate of Return	Prices are set to recover an excess over costs that may then be directed to capital improvements/development of similar facilities.
SUB	Subsidies (Partial Cost)	Council only recovers a portion of costs. New services, services located in areas of need within the City, and services from which benefits accrue to the City's community as a whole, are often subsidised. Services described as Community Service Obligation
STAT	Statutory	Prices are set to comply with statutory legislation.
N/A	Not Applicable	

* Costs are generally recovered through charging methods such as flat fee, period of use, time of use, or frequency of use.

NEIGHBOURHOOD FACILITIES MANAGEMENT

Terms and Conditions of facility hire apply to all bookings. These can be found at www.penrithcity.nsw.gov.au under the "Facilities" tab. Any portion of bonds/deposits retained will be subject to GST of 10%. An additional 25% of all fees relating to public holiday bookings will apply. The Community Facilities and Recreation Manager has the discretion to assess fee concession requests, add or vary prices for sole use of office or facility space and/or commercial activities. Where a facility has been booked in advance, and the booking is not fully paid prior to the adoption of fees for the next financial year, the Community Facilities and Recreation Manager reserves the right to charge the difference at their discretion.

Community Managed Neighbourhood Facilities

Terms and Conditions of facility hire apply to all bookings. These can be found at www.penrithcity.nsw.gov.au under "Facilities" tab. Any portion of bonds/deposits retained will be subject to GST of 10%. Where community development projects occupy offices and or use bookable spaces the rental component of the projects funding must be paid to Council. Fee concessions for Government funded community service organisations will be assessed in accordance with Council's Neighbourhood Facilities Management Policy. An additional 25% of the hire fee will be applied on Public Holidays where Council incurs additional costs due to penalty rates.

The Community Facilities and Recreation Manager has the discretion to add or vary prices for commercial activities.

Annual Domestic Waste Management Service Charge (S496 Local Government Act 1993)

Penrith City Council's waste service offers a variety of options so that households can opt for the service that best suits their needs. Each option supports Council's efforts in waste avoidance and resource recovery through the collection and processing of food and garden organics (FOGO, that produces a compost product that can be used in various applications including agriculture) and dry recyclables. The 3-bin services are provided to all properties in the LGA except for multi-unit complexes and residential flat buildings where a collect and return service is provided.

There are five options for 3-bin Domestic Waste Services:

Sustainable Service

Annual charge \$415.00 – 240L green-lidded organics bin collected weekly, 240L yellow-lidded recycling bin collected fortnightly and 140L red-lidded residual garbage bin collected fortnightly. This service suits the majority of households.

Large Service

Annual charge \$503.00 – 240L green-lidded organics bin collected weekly, 240L yellow-lidded recycling bin collected fortnightly and 240L red-lidded residual bin collected fortnightly. This service is suitable for households that have additional waste not suitable for composting or recycling.

Weekly Service

Annual charge \$635.00 – 240L green-lidded organics bin collected weekly, 240L yellow-lidded recycling bin collected fortnightly and 140L red-lidded residual bin collected weekly. This service is suitable for households that have additional waste needs not suitable for composting or recycling.

Large Weekly Service

Annual charge \$822.00 – 240L green-lidded organics bin collected weekly, 240L yellow-lidded recycling bin collected fortnightly and 240L red-lidded residual bin collected weekly. This service is suitable for households that have additional waste needs not suitable for composting or recycling.

War on Waste Service

Annual charge \$310.00 – 240L green-lidded organics bin collected weekly, 240L yellow-lidded recycling bin collected fortnightly and 80L red-lidded residual garbage bin collected fortnightly. This service is for those households demonstrating outstanding waste avoidance and resource recovery practice. This service requires approval following bin inspection and statement of commitment by the property owner.

Note: for all 3-bin services, the organics bin and recycling bin is 240L as the default size. Any reduction in bin size attracts a "change in bin capacity" fee. Bin sizes can be reduced to 140L or 80L.

The full range of options are detailed below:

3-Bin Service for all properties

No. of Organics Bins (weekly)	No. of Recycling Bins (fortnightly)	No. of Residual Garbage Bins	Charge Name	Amount per week(\$)	Amount Annually (\$)

Vacant Land - All Residential Properties

Vacant Land	Charge Name	Amount (\$)
Vacant Land	Dom Waste Vacant Land Charge	73.00

Domestic Waste Management Service Charge (S496 Local Government Act)

Domestic Waste Management Service Charges (including vacant land charges) apply to each parcel of rateable land for which the service is available (service is available to the Penrith Local Government area) at the rates specified in the above table and based on the number of residential dwellings or flats occupying each parcel of land.

3 bin service for All Properties

All properties except for multi-unit complexes and residential flat buildings (or as determined by Council) will be provided with the 3 bin service (organics, recycling and residual garbage).

Collect and Return

For multi-unit dwelling properties with more than 4 units, and for multi-unit dwelling properties where kerbside collection is not logistically feasible (as determined by Council), a 'Collect & Return Domestic Waste Service' will be provided. This service provides multi-unit properties with shared bins permanently stored within a Council approved communal storage area. The communal bins are shared amongst residents and directly accessed by Councils contractors to perform scheduled collections. A bin allocation of 1 x 240L garbage bin and 1 x 240L recycling bin per 2 units (as determined by Council) is given, and collection occurs twice weekly for garbage and once weekly for recycling. For residential flat buildings 1100L bins are used (as determined by Council) and residents access to the bin infrastructure through chute inlets available on each residential level.

War on Waste (WOW Service)

Provision of the WOW Service requires approval following bin inspection and statement of commitment to sorting waste into the correct bins by the property owner. This service may be removed by Council should contamination appear in any bin or should the lid not shut on the residual waste bin when presented at the kerbside for servicing.

Domestic Waste Management Service Charge - Contamination

Where it is found that an Organics bin has been contaminated with waste (other than acceptable waste for that bin) on three occasions through Council's Contamination Management Program, and the owner and occupier have been informed and advised on each occasion, then a Large Weekly (Contamination) Service shall apply. Once a property is provided with a Large Weekly (Contamination) service, the occupant can apply to reinstate the 3-bin service by requesting a trial in writing. The trial program will have a 140L organics bin provided to the property and monitored for a period of time. Should appropriate food and garden organics content be presented in the bin, then the Large Weekly (Contamination) Service shall be removed and an appropriate 3 bin service recommence (as determined by Council).

Bin Capacity Changeover Fee

Property owners are able to increase or decrease the size of their organics bin, recycling bin, and/or residual garbage bin throughout the year. New charges are applied pro rata to their rates account from the date of delivery. Where residents choose to increase the capacity of their residual garbage bin, or take the option of an additional residual garbage bin, then a Bin Capacity Changeover Fee will apply. This fee applies to each residual garbage bin where there is an increase in capacity or an additional bin to be provided.
